Fantastic!

I really enjoyed how in depth the ideas were and how I was given multiple ideas. I like that I can ask exactly what I'm looking for down to the grade level and I'm provided great ideas. This has given me new ideas to keep my kids engaged and excited.

Amazing resource.

I love that it is specific for PDHPE. Fantastic and realistic lesson ideas. The inclusion of differentiation tasks is incredible. Ticks all the boxes for student learning and engagement.
